COPY

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed

in patent number 5,908,858, granted June 1, 1999, and for which a

reissue patent is sought on the invention entitled 1,2-DIPHENYLPYRROLE DERIVATIVES,

THEIR PREPARATION AND THEIR THERAPEUTIC USES

the specification of which

☐ is attached hereto.

☒ was filed on Sept. 29, 2000 as reissue application number 09 / 678,218

and was amended on _____

(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

An error upon which reissue is based is that the patentees claimed more than they had a right to claim in the patent. One such error is that certain of the original patent claims, namely claims which specified compounds wherein R¹ may be -NHR⁶ (which are prodrugs) or specified compositions or specified methods utilizing said specified compounds, included subject matter within their scope which might be within the scope of subject matter claimed in Patent No. 5,932,598. In the reissue application as filed the claims are amended to delete said compounds wherein R¹ may be -NHR⁶ or a species thereof.
